PROFILE SUMMARY

Dedicated dermatology and aesthetic medicine practitioner with more than 7 years of clinical experience across the UAE, Saudi Arabia, and Sudan, combining medical dermatology expertise with advanced cosmetic procedures. Skilled in injectable fillers, Botox, thread lifting, skin rejuvenation, mesotherapy, chemical peels, hair transplantation, and laser treatments, with a strong record of safe, patient-centered care. Trusted for accurate diagnosis, clear and empathetic communication, and treatment plans that balance clinical integrity with natural aesthetic results. Seeking to bring this expertise to a leading clinic in the UAE.

CORE QUALIFICATIONS

- Proficient in injectable aesthetics, including dermal fillers, Botox, biostimulators, and thread lifting, delivering natural, balanced results with a strong focus on patient safety and satisfaction.
- Demonstrated ability to diagnose and manage a broad range of skin, hair, and scalp conditions, including acne, eczema, psoriasis, alopecia, and skin cancer, using dermatoscopy and targeted diagnostic testing.
- Proficient in advanced skin rejuvenation procedures such as laser treatments, chemical peels, mesotherapy, microdermabrasion, and derma-roller and dermastamp therapy for acne scars.
- Demonstrated ability to perform dermatologic surgery, including excisional surgery, skin biopsy, cryosurgery, and radiofrequency removal of moles and warts, with sound clinical judgment.
- Strong ability to build patient trust through clear, empathetic communication, realistic expectation setting, and thorough aesthetic consultations that ease concerns and support informed decisions.
- Proven ability to practice across diverse healthcare settings in Sudan, Saudi Arabia, and the UAE, adapting quickly to varied patient needs while staying committed to continuous professional development.

WORK EXPERIENCE

Dermatologist and Aesthetic Medicine Specialist **Jul 2023 – Present**

Estelaza Clinic | Dubai, UAE

Deliver comprehensive dermatology and aesthetic medicine services, diagnosing skin disorders through careful examination and easing patient concerns with clear, empathetic communication.

Key Achievements

- Enhanced facial harmony and patient satisfaction through Botox, dermal filler, and biostimulator injections tailored to individual needs and goals.
- Improved acne scars and skin texture through derma-roller and dermastamp therapy, and removed moles and warts using radiofrequency, supported by skin biopsy where indicated.
- Advised pharmaceutical representatives on the suitability and effectiveness of products for specific conditions, and supported community health awareness programmes promoting healthy lifestyle choices.

Dermatologist & Aesthetician **Apr 2022 – May 2023**

Best Clinic | Riyadh, Saudi Arabia

Managed a combined dermatology and aesthetic caseload, treating acne, dandruff, athlete's foot, moles, psoriasis, and skin cancer alongside Botox and dermal filler procedures.

Key Achievements

- Administered chemical peels, comedone removal, and intralesional steroid therapy to treat acne and inflammatory skin conditions effectively.
- Conducted incisional biopsies to support accurate, timely diagnosis of melanoma and other serious skin conditions.
- Monitored the effectiveness of skin treatments and refined care plans, leading to steady improvement in patient outcomes.

Dermatologist & Aesthetician **Aug 2021 – Mar 2022**

Effat Daghestani Clinic | Jeddah, Saudi Arabia

Practiced both medical dermatology and aesthetic medicine, providing careful, evidence-based care for common and complex skin conditions.

Key Achievements

- Diagnosed and treated acne, dandruff, athlete's foot, moles, psoriasis, and skin cancer, including melanoma assessment through incisional biopsy.
- Applied chemical peels, comedone removal, and intralesional steroid therapies to resolve acne and related skin concerns.
- Tracked treatment effectiveness and adjusted therapies to keep patients progressing toward clear, healthy skin.

Dermatologist **Mar 2020 – Jul 2021**

Khartoum Hospital for Dermatology and Venereology | Khartoum, Sudan

Treated patients with acne, dandruff, athlete's foot, moles, psoriasis, and skin cancer in a specialist dermatology and venereology hospital, building a strong foundation in clinical dermatology.

Key Achievements

- Provided therapies including chemical peels, comedone removal, and intralesional steroids to resolve a wide range of skin concerns.
- Performed incisional biopsies to support accurate diagnosis of melanoma and other skin cancers.
- Evaluated treatment response and adjusted care plans to improve patient recovery and long-term skin health.
